- View Seafarer History online
- Optimize ship operations and crew deployment to reduce TCO
- Overview of all crew and crew activities
- Efficient processes in one system, including fleet management, crewing and payroll

PAYROLL

Benefits:

- Get an overview of payroll information with reports
- Minimize administration, maximize operations and save time
- Efficient processes in one system, including fleet management, crewing and payroll
- Interfaces to accounting system

REST HOURS

Benefits

- Record and track the rest hours of all of your crew on board the ships
- Multiple regime settings and direct validations inbuilt in the system
- Automated reports on crew / officer's rest hours
- Automatic generation of rest hour schedules based on the crew available on board.

DOCUMENT MANAGEMENT

DOCUMENT REPOSITORY

Benefits

- Efficient management and distribution of documents across the fleet
- Centralized storage of all documents and files
- Critical documents are controlled and cannot be changed without approval

CERTIFICATES

Benefits

- Easy and flexible overview of all registered certificates
- Continued validity of your certificates
- Never miss an upcoming renewal of a certificate
- Record of Certificates along with its history

MANAGEMENT SYSTEMS

Benefits

- Easy access to the entire Management Systems within [SAVVYMARINER](#)
- Full control of everything that goes into the system
- Organized and less user direct interaction on QMS system updates

Onshore Operation and Control

“make data-driven decisions and seamlessly connects all areas of the business, giving the shipping company a collaborative edge in ship management.”

The **SAVYMARINER** digital platform can improve safety and reliability. This drives better outcomes for customers, integrating technology and data where to generate tangible value in all aspects of our operations.

FLEET SUPERVISION

Benefits

- Easy overview of upcoming activities across the fleet
- Overview of outstanding issues (activities cannot be closed with outstanding issues)
- Unique office database with a 100% accurate copy of all vessel databases.

MONITORING JOBS AND E-ALERTS

Benefits

- Optimized Asset Management
- Share knowledge on fleet level
- Improved task performance
- Prevent reoccurrence of defects
- Technical data available on board the vessels
- Flexibility to change procedures and parameters on several ships at once
- Automated alerts to users by email

TASK LIST & FORUM

Benefits

- Maximize uptime
- Full access to all tasks
- Adjustable system fitting your company's internal processes
- An organization with healthy communication
- Follow-up on user acknowledgements
- Encourage users to share experiences and learn from each other

DATA ANALYTICS

Benefits

- Easily customized reports fitting your needs
- Efficient analysis of data
- Fast identification of areas for cost savings
- Easy identification of new business opportunities
- Brings important information to the attention of decision-makers
- Connects data from different departments or source systems to gain insight
- Draw conclusions about fleet and vessel performance

MANAGEMENT REPORTS

Benefits

- React faster on issues that needs your attention
- Fine tuned MIS reports for management decisions and operational needs
- Fleet data at your fingertips
- Informed Decision Making
- Provide access to owners online
